ABOUT THE CONFERENCE

The term soft computing represents an umbrella term for computational techniques like fuzzy logic, neural networks and nature inspired algorithms. In the past few decades there has been an exponential rise in the application of soft computing techniques for solving complex and intricate problems arising in different spheres of life. **SoCTA**, is one year young International conference being organized at **Bundelkhand University Jhansi, Uttar Pradesh, India**. The first conference was organized at Amity University Rajasthan, Jaipur. The objective of SoCTA 2017 is to provide a common platform to researchers, academicians, scientists and industrialists working in the area of soft computing to share and exchange their views and ideas on the theory and application of soft computing techniques in multi disciplinary areas.

CALL FOR PAPER

The conference programme will include workshops, special sessions and tutorials, along with prominent keynote speakers and regular paper presentations in parallel tracks. The SoCTA2017 team cordially invite you to submit your latest original and unpublished research work/results in the fields of Soft Computing Techniques and their Applications in versatile domains, and to take part in the upcoming conference, to be held on December 22 -24, 2017 at Bundelkhand University Jhansi. Papers can be submitted online through EasyChair: (<https://easychair.org/conferences/?conf=socta2017>)

PROCEEDINGS

All accepted papers fulfilling Springer (AISC) requirements on quality will be published in the Springer (AISC), which is SCOPUS indexed. It is mandatory that at least one author registers for every paper that is included in the conference proceedings. All accepted papers presented at SoCTA2017 will be selected and recommended for possible publication in Journal Special Issues and Edited Volumes (indexed by SCOPUS, SCI etc).
